

Lakeview Softball

Step 1: go to website: <http://iscorecast.com>

Step 2: enter Customer ID: 61B41C5283

Step 3: Select a game. Look for the current date. There may be multiple games so make sure you select the correct one. Before selecting a game, press “update games”.

Step 4: Wait for game to start. It will update automatically about every 30 seconds. You can manually update the page by clicking on “update”.

Special notes:

On double headers (which most of the games are) you may have to start over at step 1 if you selected the wrong game. You will know you selected the wrong game if you’re waiting for it to start and nothing happens, even after pressing “update”.

At the end of the first game of a double header, you will have to go back to step one to get set up for the second game.

If you encounter problems viewing, email Phil Lalim at phil.lalim@hotmail.com. I will not be able to help you the day of a game, but I will be able to help you for future games.

Enjoy and hopefully you find this useful.
