

# Preschool *at Lakeview*

Each of our preschool classes meet multiple days each week, allowing time to enhance and expand the learning opportunities available for your child. Our preschool is staffed by licensed teachers and is designed to provide a foundation for lifelong learning. Children are natural explorers and problem-solvers and they learn through play. We provide the opportunities to foster that growth and development through a variety of hands on learning experiences.

## What will my child learn?

Activities and exploration are provided in the following areas:

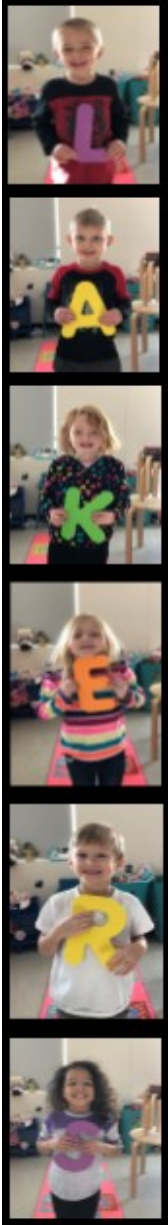

- Science
- Technology
- Math
- Art
- Music
- Social Skills
- Literacy Activities
- Problem Solving
- Cooperative Activities
- Large Muscle Activities
- Fine Motor Skills
- Creative Dramatics

**Parent Aware 4 Star Rated**

Our preschool classes have received the highest possible rating from Parent Aware. We are proud to use the best practice for preparing children for kindergarten. Having this rating means families who qualify financially can apply for Early Learning Scholarships.

# Communication

We pride ourselves on excellent teacher-parent communications. In addition, we provide family Conferences, regular newsletters with recaps and previews of activities and recommendations on how families can extend learning beyond the school day.
